

Our values: Resilience, Kindness, Responsibility, Ambition

Phoenix Primary School Newsletter

Issue 21 | March

✿ Weekly Roundup ✿

Our focus value for this half term is: Ambition

And just like that spring term comes to an end...

What a busy and very productive term we have had here at Phoenix. As previously mentioned we are pressing on with our school improvement strategies, with a heavy focus on teaching and learning and improving educational outcomes for all pupils. I would like to take this opportunity to thank all the staff here at Phoenix that have worked so hard this term to ensure that we continue to improve and progress as a school. Whilst there is room for improvement, I know firsthand how much time, dedication and commitment goes into each and every day – our staff team work diligently to help make sure all children have access to high quality learning. We look forward to the journey ahead and an exciting summer term!

Below is a link that has been previously shared in a newsletter, it details different activities that are available for families to access during the Easter break. Some of the activities are free and only require you to register or just turn up!

Parents Evening

A huge thanks to those parents that attended the parents evening on Tuesday, it was lovely to see the hall full and the feedback from both teachers and staff was incredibly positive.

Here at Phoenix we know the power of a collaborative and positive relationship between school and home and we do not take for granted the support we receive from parents and families. This approach helps to further strengthen our school community and enhances our reputation within our local area and beyond.

Sports Report

Final sports report of the year is all about our swimming team who took part in the Liverpool Schools Swimming Gala on Monday of this week. This is a fantastic event and is always well attended by different schools from across the city. Last year we did not manage to compile a full team – but this year was different!

We took a full squad of eight children, four boys and four girls from years 4,5, and 6. Children took part in different races which involved, front crawl, backstroke and breast stroke. In addition to this, we also had children finishing in the medal positions. A huge well done to all of the children who represented Phoenix!

★ **Attendance Stars** ★

As you know, raising our whole school attendance is a huge priority for us at Phoenix, and we have noticed an improvement in both attendance and punctuality, so we'd like to extend our thanks to our families for supporting us with this. Let's keep improving and raising the profile together!

A huge well done to our termly attendance winners – Year 2!

Year 2 enjoyed a whole class trip to the bowling alley on Tuesday.

Which class will win next terms attendance prize?!

OPAL Developments

After the Easter break, we are hoping to develop an OPAL working party of parents that could spare some time to help further improve the school playground for our pupils. Mr. Rubio and Mr. Peters have done an incredible job so far and we have further plans to develop the playground but we are always looking for volunteers that could spare some time to help out. This could be painting fences, helping to construct play equipment or even some help with gardening work. If you think you could please provide your name and contact details to the office.
